### **General Hinged doors:**

Transforma also provides a wide range of hinged doors with High pressure Laminate (HPL) 0.9 mm covers; to enhance the door performance against any environmental effects and to comply with healthcare

international standards. Such doors are specifically designed for general areas in the hospital; such as main entrances, department entrances, office entrances, store entrances, etc...:

Available compositions:

- Space saving/Pivoting swing door; for wheelchair access in patient rooms
- Normal HPL Hinged doors
- Normal HPL Hinged door with passive leaf and static leaf
- Double leaf HPL Hinged doors

With a variety of accessories and options to match the client requirements for each door; from viewing windows, protection strips, locking mechanisms to a wide range of color finishes.
